DETAILED ACTION

Claim Objections

1. Claims 1-24 are objected to because of the following informalities: Please expand "I/Q", as recited in the claims. Claim 11, line 4, shouldn't "an" be replaced by "a"? Claim 13, line 8, "test" should be deleted so as to be consistent with antecedent, line 13, "the real" should be replaced "a real"; line 15, "to the" should be replaced by "to an"; line 19 recites "for implementing the steps of". However, it is noted that claim 13 is an apparatus claim. Apparatus claim does not include steps. It is suggested that such limitation be replaced by the following limitation: "configured to" the same comment applies to similar limitation recited in line 31 and obtaining ", as recited in lines 20-32, should be replaced by "obtain"; line 37, "choosing" should be replaced by "choose". The dependency of claim 15 should be changed to "14" so as to provided antecedent basis for "a" and "b". Claim 23, line 3, "further implementing the steps of" should be replaced by "is further configured to"; line 4, "adding an" should be replaced by "add a" and "obtaining in each occurrence in claim 23 should be replaced by "obtain". Any claim whose base claim is objected is likewise objected is likewise objected.

Appropriate correction is required.

2. Claims 6, 8, 18 and 20 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 6 does not appear to further limit claim 5 because it does not add any additional limitation

Art Unit: 2611

to the previous limitations recited in claims 1 and 5, Similar comment applies to claims 8, 18 and 20.

3. This application is in condition for allowance except for the formal matters noted above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Allowable Subject Matter

4. Claims 1-24 would be allowable if amended to overcome the objection sets forth above.

5. The following is a statement of reasons for the indication of allowable subject matter: A method and apparatus for I/Q mismatch calibration are disclosed. The closest prior art Wynn, US Patent No. 6,009,317, discloses similar method and apparatus. However, Wynn, does not teach or fairly suggest, in combination with the other limitations, the limitations recited in claim 1, lines 12-38 and similar limitations recited in claim 13.
